### B.Sc. (Information Technology)

## Certificate

This is to certify that Mr./Ms. Rana Riddhi Satishkumar with Exam Seat Number: 189 has worked on his/her project work entitled Bicycle Service Portal at Mark Us infotech as a partial fulfillment of the requirements for 6<sup>th</sup> Semester - B.Sc. (Information Technology) [M.Sc. (Information Technology) - 5 Year Integrated course], during the academic Year 2020-2021.

Date : 1.7.2021

Place : Surat

Date: 19/04/2021

To,  
Project coordinator,  
MSC-IT,  
VNSGU, Surat.

**Subject: Training for Final Semester**

This is to inform that **Ms. Riddhi S. Rana** has been selected for her 6th semester training in **Mark-us Infotech**. The student will be given a training in PHP. During the training they are supposed to follow all the rules and regulations defined by the company.

We hope that they put their efforts and remain loyal to the company during the training. The joining date of the student is **19/04/2021**.

Yours faithfully,  
For and on behalf of  
**Mark-us Infotech**

# **1. Project Profile**

## **Definition:**

Provide a platform for the user to book their Bicycle service request online can see service status.

## **Basic Information:**

<b>Project Title</b>		<b>Bicycle Service Portal</b>
<b>Organization</b>		<b>MarkUs Infotech</b>
<b>Front End Tools</b>		<b>PHP framework Laravel , JavaScript, JQuery &amp; AJAX.</b>
<b>Back End Tools</b>		<b>MySQL</b>
<b>Other Tools</b>		<b>HTML5, CSS3 &amp; BOOTSTRAP</b>
<b>Project Category</b>		<b>Web Based Application</b>
<b>Project Associates</b>		<b>Two</b>
<b>Duration</b>		<b>Three Months</b>
<b>Internal Project Guide</b>		<b>Dr. Tejas Shah Dr. Shailesh Chaudhary</b>
<b>External Project Guide</b>		
<b>Submitted By</b>		<b>Mr.Vasu Pastagiya Ms.Riddhi Rana</b>
<b>Submitted To</b>		<b>Department Of ICT, VNSGU</b>

## **1.1 Introduction**

Bicycle service portal as name suggest is a Service Booking website which helps the customers to book particular service requests in their nearby service center. It builds a strong platform for vendor to put their service for booking and arrange various services for their customers. The admin of the website can manage all the categories of Services and provide packages. Admins are allowed to add service of a given category and manage their Services. Customers can see the services of their choice. Customers can book the service in service center which is nearby their location and payment online according to service. The goal of the website is to give comfort to customers to Book service on particular timing without going to the service center's owner and without going outside and increase the booking of services.

## **Existing System**

Existing system is manual one in which user have to book service request on the store. people live busy lives so it's not always convenient to drop off bicycle at a service center and schedule a time to collect it.

Moreover , It's very difficult to maintain historical data for the vendor. The vendor cannot store all the data at a time and it's difficult to manage.

Following are the limitation of existing system:

- Customer need to manually visit store to book service request.
- It is difficult to maintain important information in books.
- More manual hours need to generate report.
- It is tedious to manage historical data which needs much space.
- Daily service request and their details must be entered into books are very difficult to maintain.

## **1.2 Proposed System**

### **Scope**

- The goal of bicycle service portal is to give a flexible user interface to Customers to book service at any time without going anywhere. Customers can have booked service at a reasonable price.
- The admin can manage the services provided by them and as it helps to boost up the booking of services and more and more customers to join in and the boundary of their business is also increased as they put up their Service center on the website. Admin is authorized to approve or disapprove user and their booking request.
- Admin can manage users, services, booking and all other entities of database.
- Users can show all the services provided, packages available and can book their slot for service. After booking they track their service .
- Users will also be able to download invoice for particular booking.

### **Objectives**

- Provide System administrator with easy interface for different administration task like addition , deletion and updation of different entities.
- System users should properly maintain user privileges, i.e. they should only allow registered members to access user allowed features.
- Admin can manage user and their appointment request and update status of request.
- Admin can add new packages as well as service elements by adding all its details. Services can also be removed/updated.
- Customer are allowed view services provided by store and can place service requests for their requirements.
- User can view their profile as well as booking details. They can update their profile too.
- Customer can book appointment and download invoice pdf.

# **Feasibility Study**

- Feasibility study involves research relating to different aspects that go into developing software. Feasibility study of the problem definition or requirement was done to determine if the requirement can be solved effectively given the budgetary, operational & technical and scheduled constraints in place.
- The aim of feasibility study is to identify the best solution under the circumstances by identifying the effects of this solution on the organization.
- The feasibility of our project has been judged on the basis of time, technology, resources available, behavioral feasibility & cost of development.

## **1.DURATION FEASIBILITY**

- Project initiated with pre-stated deadlines. The duration is allotted keeping in mind the entire task & is practically feasible.

## **2.IMPLEMENTATION FEASIBILITY**

- A proper implementation is essential to provide a reliable system to meet requirements of the organization. Implementation is the stage in the project where the theoretical design is turned into a working system. The most critical stage in achieving a new successful system is to improve the performance of the existing system and to deliver system effective application.

### **3.OPERATIONAL FEASIBILITY**

- It will help in time saving and fast processing and dispersal. From the Admin perspective our application requires basic knowledge about policies of Cyber World.

### **4.TECHNICAL FEASIBILITY**

- Minimum system required for admin, user and visitor is computer connected with internet with compatible browser.
- The system is suitable for multi user operations. With the available resources robust system with data security can be developed. It uses PHP which has been tested & approved to be sufficiently robust, scalable & efficient to develop such an application. Hence technically there is no limitation for development of the system.

### **5.RESOURCE FEASIBILITY**

- The system requires well trained software developers. Besides that network connectivity, MySQL servers are needed. Tools for documentation & editing are required.

### **6.BEHAVIOURAL FEASIBILITY**

- Benefits of proposed system were assessed. Having realized the benefit of new system the user's response was studied before the inception of system development. They reacted positively towards the proposal.
- Since all the users involved in project development are familiar with internet no explicit training will be required to learn the usage of new system. Simple guidance would suffice.

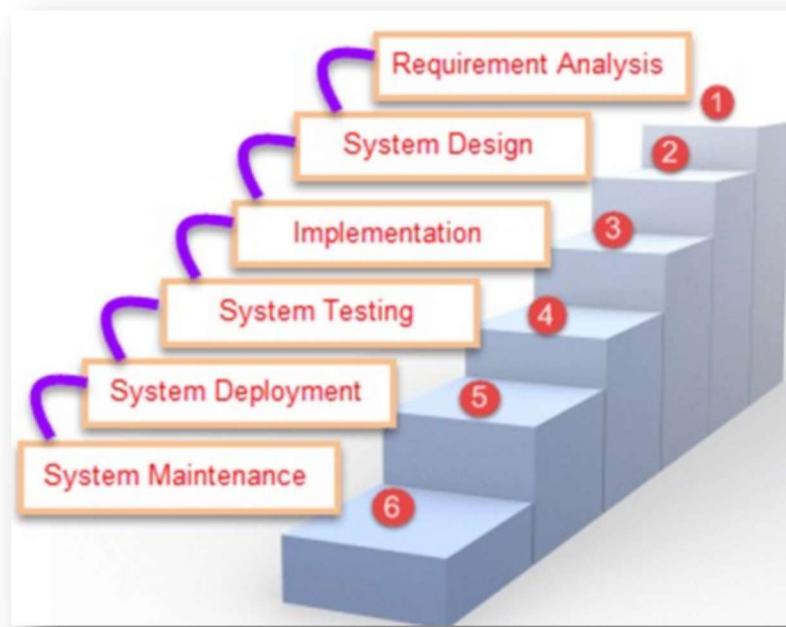

## **7.ECONOMIC FEASIBILITY**

- The cost of software and hardware required for system including storage of bulk of data server.
- No budgetary constraints were imposed on the system. More importantly since all free software were used only hardware, usage & internet costs were to be considered. These were quite limited & well within feasibility.

## 2. System Environment

### Software Engineering Model

- We followed Iterative Waterfall Model for software development do we can add new functionalities as per requirement.

### Technology Description

- PHP, Laravel, JavaScript, JQuery & AJAX
- MySQL(Apache)
- HTML5,CSS3 & BOOTSTAP

### Software Requirement

- Web browser with internet connection.

### Hardware Requirement

- Laptop or PC or Mobile with internet connection.

### **3. System Analysis and modelling**

#### **3.1 Software Requirement Specification**

- Functional Requirement (User)

1. Registration
2. Login
3. Manage Profile
4. View Packages
5. Request Service
6. Track service Status
7. Give Feedback
8. Raise query

- Functional Requirement (Admin)

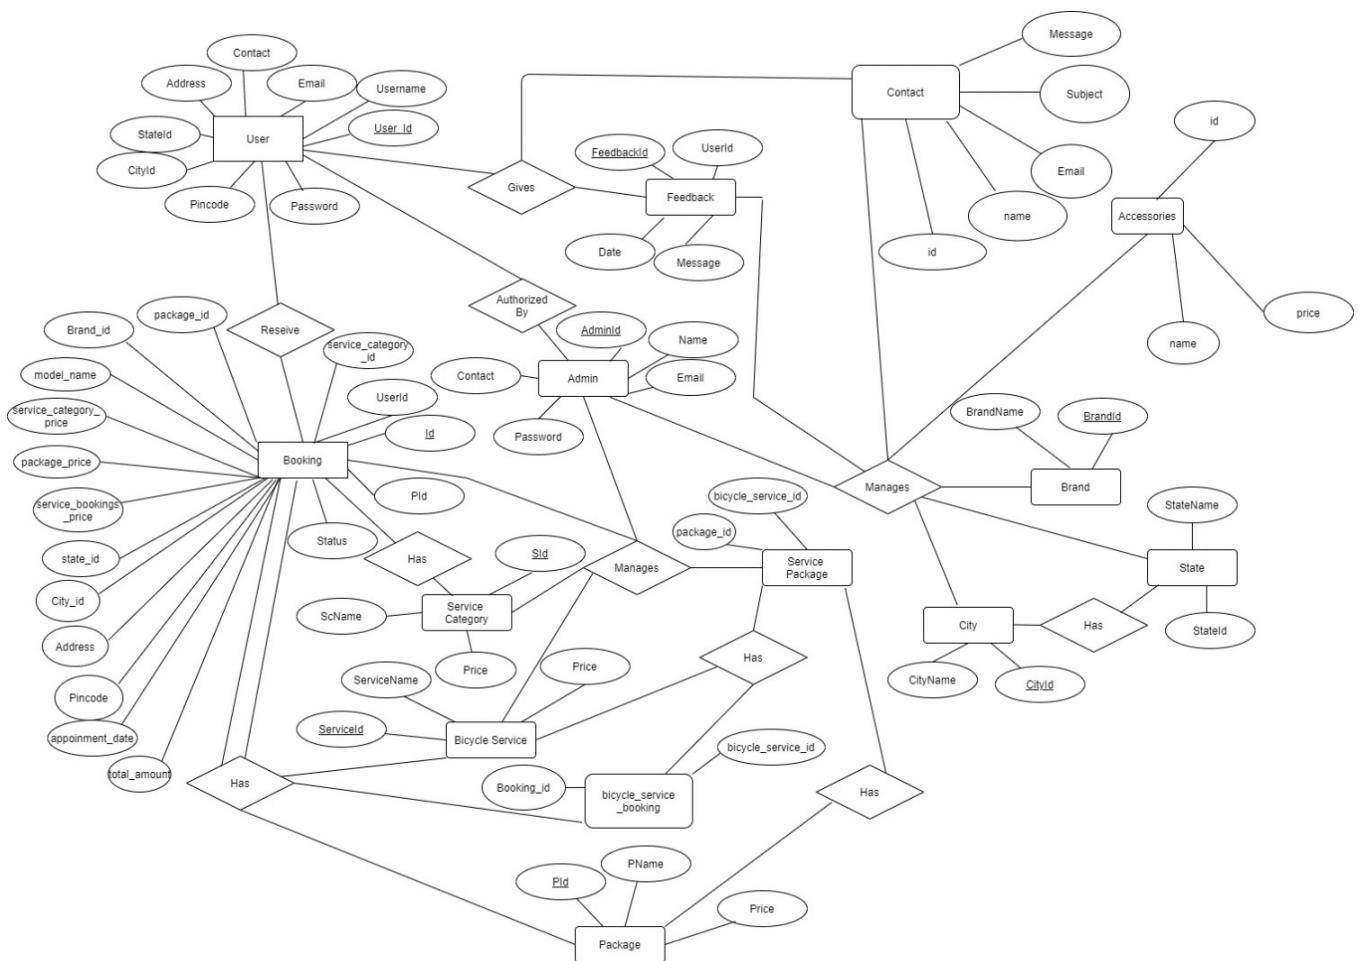

1. Login
2. Manage User
3. Manage Package
4. Manage Service
5. Manage Booking Request

6. Manage Status
7. Manage Feedback

- Non Functional Requirement

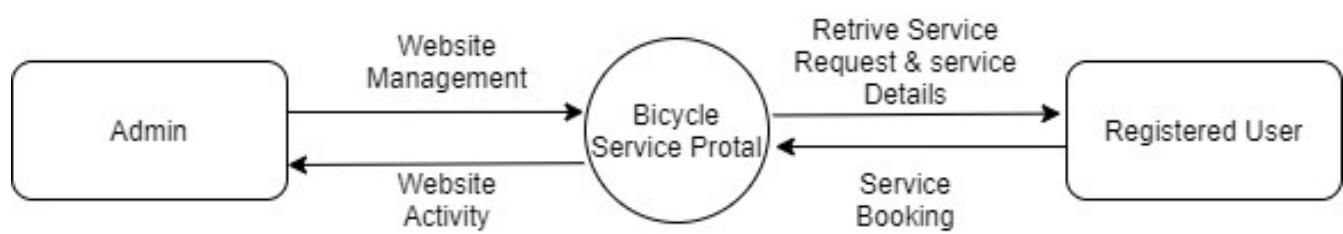

1. Reliability
2. Availability
3. Security
5. Performance
6. Reusability
7. Flexibility
8. Maintainability
9. Database
10. Login-Logout
10. Download pdf.

## 3.9 Process Specification

### Admin Side

#### **Process 1**

Process name	Login process
Description	This process will take login information as input from admin and will compare that information with data stored in table. If provided credentials are match then system will create session else will show error
Input	Admin email and password
Output	Error message or success response.

#### **Process 2**

Process name	Manage User
Description	This process will help admin manage the registered users of its web application. It will allow admin to block user or even delete the user.

Input	Request User Data
Output	User data

### **Process 3**

Process name      Manage Brands

Description      This process will help admin manage the brands which are serviced by them. It also allow admin to insert, update and Delete the data of brand.

Input	Brand
Output	Response Data

### **Process 4**

Process name      Manage Feedback

Description      The admin will be able to view customers feedback and can delete those if required.

Input	feedback
Output	Response Data with acknowledgement.

### **Process 5**

Process name	Manage Bicycle service
Description	The admin will be add New bicycle services that are provided by the center that can be view on web application and will also allow to delete or update any service .
Input	Bicycle Service Data.
Output	Response Data with acknowledgement.

### **Process 6**

Process name	Manage Packages
--------------	-----------------

Description	This process will allow admin to manage packages that can be view by the all user of their web application. Admin is able to add packages and their services . Moreover admin can update and delete particular package.
Input	Bicycle Service Data.
Output	Response Data with acknowledgement.

### Process 7

Process name	Manage Booking
Description	The admin will be able to view bookings request and details of customer. After completion they can delete booking record.

Input	Booking details
-------	-----------------

Output	Response Data with acknowledgement.
--------	-------------------------------------

### Process 8

Process name	Update Booking Status
Description	This process allow admin to update status of customers service booking request that can be reflected to customer's profile.
Input	status
Output	Changes to status of request

## User Side

### Process 1

Process name	Registration
Description	This process allow guest user to access website by registering their details and verifying email. The details will be stored into company table
Input	User information
Output	Error message or success response.

## **Process 2**

Process name	Login process
Description	Login process will allow users to book their appointment By logging in with login details will be compared with the data stored in user table. If data matched, session will be created else will show error.
Input	User email and password
Output	Error message or success response.

## **Process 3**

Process name	Contact Us
Description	This process helps user/customer to send enquiry to service centre. After this the store will connect to the customer via email provided by customer.
Input	Email ,subject , message
Output	The query will be submitted to admin.

## **Process 4**

Process name	Feedback
--------------	----------

Description	The Registered user can send the feedback .
Input	Email ,feedback message
Output	Feedback is stored .

### **Process 5**

Process name	Book Appointment
Description	Registered user can book their appointment after logging in.
Input	Booking details
Output	Booking request is generated.

### **Process 5**

Process name	Download Receipt
Description	After booking an appointment user can download receipt of their booking.
Input	Booking details
Output	Downloaded pdf.

## **Process 6**

Process name      View profile

Description            This process will allow user to view their personal details as well as booking details after logged in.  
They will also be able to manage their personal details.

Input                Personal details

Output              Updated profile

## **4 Designing**

## 4.2 Interface Design

### Admin Interface Login

### Home page

The screenshot displays the ShivDeep Cycle Admin Home page. On the left is a dark sidebar menu titled 'ShivDeep Cycle' containing links for managing users, bicycle brands, service categories, services, packages, bookings, feedbacks, and accessories. The main content area has a header 'Home / admin' and a title 'ShivDeep cycle'. It features three large, colored cards showing request statistics: a blue card for 'Pending Requests' (0), a light blue card for 'Confirmed Requests' (0), and an orange card for 'Total Requests' (0). Below these cards is a section titled 'Queries' with a table of user messages. The table columns are 'User name', 'Email', 'Subject', 'Message', and 'Action'. It lists four messages from users 'jigar', 'Jayesh', 'jay', and 'Ajay' with their respective emails and subjects. Each message has a red 'Delete' button in the 'Action' column. At the bottom of the table are navigation buttons for pages 1, 2, and 3. The footer includes copyright information 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and a powered-by line 'Powered by MarkUs InfoTech.'

# Manage User

The screenshot shows a web application interface for managing users. On the left is a dark sidebar menu with the title "ShivDeep Cycle" at the top. Below it are several menu items: "Manage User" (which is highlighted in blue), "Manage Bicycle Brands", "Manage Service Category", "Manage Bicycle Service", "Manage Packages", "Manage Bookings", "Manage FeedBacks", and "Manage Accessories". The main content area has a header "Manage User" and a breadcrumb trail "Home / admin / users". Below this is a table with two rows of user data:

User id	User Name	Email	Actions
1	ShivDeep cycle	shivdeepcycle@gmail.com	<button>View</button> <button>Delete</button>
2	Vasu pastagia	vasupastagia2001@gmail.com	<button>View</button> <button>Delete</button>

At the bottom of the page, there is a footer with the text "ShivDeep Cycle © 2021 MarkUs InfoTech." and "Powered by MarkUs InfoTech."

# View User Details

The screenshot shows a detailed view of a user's information. The sidebar menu on the left is identical to the one in the previous screenshot. The main content area has a header "User Details" and a breadcrumb trail "Home / admin / users / 2". Below this is a table with seven rows of user details:

User name	Vasu pastagia
Email	vasupastagia2001@gmail.com
Contact	9998284188
Address	bhagal
State	Gujarat
City	surat
Pincode	395003

At the bottom of the page, there is a "Back" button and a footer with the text "ShivDeep Cycle © 2021 MarkUs InfoTech." and "Powered by MarkUs InfoTech."

# Manage Brands

The screenshot shows a web application interface titled "ShivDeep Cycle". On the left is a dark sidebar with navigation links: "Manage User", "Manage Bicycle Brands", "Manage Service Category", "Manage Bicycle Service", "Manage Packages", "Manage Bookings", "Manage FeedBacks", and "Manage Accessories". The main content area has a header "ShivDeep cycle" and a breadcrumb path "Home / admin / brands". Below this is a section titled "Manage Brand" with a sub-section "Add New Brand". A table lists six brands with columns "Brand Name" and "Action". Each row contains a "Brand Name" (Atlas, Bsa, Hero, FireFox, AVON, Hercules) and two buttons: "Edit" (green) and "Delete" (red).

Brand Name	Action
Atlas	Edit Delete
Bsa	Edit Delete
Hero	Edit Delete
FireFox	Edit Delete
AVON	Edit Delete
Hercules	Edit Delete

## Add new brand

The screenshot shows a "ShivDeep Cycle" application page for adding a new brand. The left sidebar includes "Manage User", "Manage Bicycle Brands", "Manage Service Category", "Manage Bicycle Service", "Manage Packages", "Manage Bookings", "Manage FeedBacks", and "Manage Accessories". The main area has a header "ShivDeep cycle" and a breadcrumb path "Home / admin / brands / create". A "Add New Brand" form is displayed with a "Brand name" input field containing "ShivDeep" and "Add" and "Cancel" buttons below it. At the bottom of the page, there are copyright notices: "ShivDeep Cycle © 2021 MarkUs InfoTech." and "Powered by MarkUs InfoTech."

# Edit existing brand

The screenshot shows the 'Edit existing brand' page. On the left is a dark sidebar with the 'ShivDeep Cycle' logo and a navigation menu including 'Manage User', 'Manage Bicycle Brands', 'Manage Service Category', 'Manage Bicycle Service', 'Manage Packages', 'Manage Bookings', 'Manage FeedBacks', and 'Manage Accessories'. The main content area has a header 'ShivDeep cycle' and a breadcrumb 'Home / admin / brands / 1 / edit'. Below this is a form with a 'Brand name' field containing 'Atlas', an 'Edit' button, and a 'Cancel' button. At the bottom of the page are copyright and power information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

## Manage Service Category

The screenshot shows the 'Manage Service Category' page. The left sidebar is identical to the previous one. The main content area has a header 'ShivDeep cycle' and a breadcrumb 'Home / admin / service-category'. Below this is a section titled 'Manage Service category' with a 'Add New service category' button. A table lists three service categories: 'Home to Home' (Price: 100), 'Advanced' (Price: 100), and 'Pick up and door' (Price: 200). Each row has 'Edit' and 'Delete' buttons. At the bottom of the page are copyright and power information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

# Add New Service Category

The screenshot shows a web application interface for 'ShivDeep Cycle'. On the left is a dark sidebar with the title 'ShivDeep Cycle' and a list of management options: Manage User, Manage Bicycle Brands, Manage Service Category, Manage Bicycle Service, Manage Packages, Manage Bookings, Manage FeedBacks, and Manage Accessories. The main content area has a header 'Home / admin / service-category / create'. A modal window titled 'Add New Package' contains fields for 'Service Category Name' (with placeholder ' ') and 'Price' (with placeholder ' '). Below the fields are 'Add' and 'Cancel' buttons. At the bottom of the page, there are copyright and power information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

# Edit Service Category

The screenshot shows a web application interface for 'ShivDeep Cycle'. The sidebar is identical to the previous screenshot. The main content area has a header 'Home / admin / service-category / 1 / edit'. A modal window titled 'Edit Package' contains fields for 'Service Category Name' (set to 'Home to Home') and 'Price' (set to '100'). Below the fields are 'Update' and 'Cancel' buttons. At the bottom of the page, there are copyright and power information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

# Manage Bicycle Service

# Edit Bicycle Service

The screenshot shows a web application interface for managing bicycle services. On the left is a dark sidebar with navigation links: Manage User, Manage Bicycle Brands, Manage Service Category, Manage Bicycle Service, Manage Packages, Manage Bookings, Manage FeedBacks, and Manage Accessories. The main content area has a header "ShivDeep Cycle" and "ShivDeep cycle". Below the header is a breadcrumb trail: Home / admin / services / 8 / edit. A modal dialog is open, titled "Edit". It contains fields for "Service name" (set to "Frame Wire Down") and "Price" (set to "150"). At the bottom of the modal are "Edit" and "Cancel" buttons. The footer of the page includes copyright information: "ShivDeep Cycle © 2021 MarkUs InfoTech." and "Powered by MarkUs InfoTech."

# Manage Packages

The screenshot shows a web application interface for managing packages. The sidebar on the left is identical to the previous screenshot. The main content area has a header "ShivDeep Cycle" and "ShivDeep cycle". Below the header is a breadcrumb trail: Home / admin / package. A section titled "Manage Packages" is shown with a "Add new Package" button. Below this is a table with two rows of data:

Package Name	Package Price	Actions
Silver	800	<a href="#">View</a> <a href="#">Edit</a> <a href="#">Delete</a>
Gold	1200	<a href="#">View</a> <a href="#">Edit</a> <a href="#">Delete</a>

The footer of the page includes copyright information: "ShivDeep Cycle © 2021 MarkUs InfoTech." and "Powered by MarkUs InfoTech."

# Edit Packages

The screenshot shows the 'Edit Package' form. On the left is a dark sidebar with the 'ShivDeep Cycle' logo and a list of management options: Manage User, Manage Bicycle Brands, Manage Service Category, Manage Bicycle Service, Manage Packages, Manage Bookings, Manage FeedBacks, and Manage Accessories. The main content area has a header 'Edit Package'. It contains fields for 'Package Name' (set to 'Silver') and 'Price' (set to '800'). Below these are 'Package Services' checkboxes: 'Frame Wire Down' (unchecked), 'Break Adjustment' (checked), 'Wheel Alignment' (checked), 'Clean-up' (unchecked), 'Chain Reparing' (checked), 'Check the fittings of all Screws and bolts' (checked), 'Check and Adjust' (unchecked), 'Hubs/BB/Headset' (unchecked), and 'safety check and report' (unchecked). At the bottom are 'Update' and 'Cancel' buttons. The footer includes copyright information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

# Manage Feedbacks

The screenshot shows the 'Manage feedback' list. The sidebar on the left is identical to the previous screenshot. The main content area has a header 'Manage feedback'. A table lists two feedback entries: one from 'Vasu pastagia' stating 'Your Service is very good' with a 'Delete' button, and another from 'Vasu pastagia' stating 'Thank You For Your Service' with a 'Delete' button. The footer includes copyright information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

# Manage Accessories

The screenshot shows the 'Manage Accessories' page. On the left is a dark sidebar with the 'ShivDeep Cycle' logo and a list of management options: Manage User, Manage Bicycle Brands, Manage Service Category, Manage Bicycle Service (which is highlighted in blue), Manage Packages, Manage Bookings, Manage Feedbacks, and Manage Accessories. The main content area has a header 'ShivDeep cycle' and a breadcrumb 'Home / admin / accessories'. Below this is a sub-header 'Manage Accessories' and a button 'Add New Accessories'. A table lists one accessory: 'Pedle' at a price of '150'. To the right of the table are 'Edit' and 'Delete' buttons. At the bottom of the page, there's a footer with the URL 'demoshost.com/shivdeepcycleservice/admin/services', the copyright notice 'ShivDeep Cycle © 2021 MarkUs InfoTech.', and the power source 'Powered by MarkUs InfoTech.'

# Add New Accessories

The screenshot shows the 'Add New Accessories' form page. The left sidebar is identical to the previous screenshot. The main content area has a header 'ShivDeep cycle' and a breadcrumb 'Home / admin / accessories / create'. Below this is a sub-header 'Add New Accessories'. The form contains two input fields: 'Accessories name' with the value 'Pedle' and 'price' with the value '150'. At the bottom of the form are 'Add' and 'Cancel' buttons. The footer includes the URL 'demoshost.com/shivdeepcycleservice/admin/services', the copyright notice 'ShivDeep Cycle © 2021 MarkUs InfoTech.', and the power source 'Powered by MarkUs InfoTech.'

# Edit Accessories

The screenshot shows the 'Edit Accessories' page of the ShivDeep Cycle administration system. The left sidebar contains a navigation menu with items like 'Manage User', 'Manage Bicycle Brands', 'Manage Service Category', 'Manage Bicycle Service', 'Manage Packages', 'Manage Bookings', 'Manage FeedBacks', and 'Manage Accessories'. The main content area has a header 'Edit Accessories'. It contains two input fields: 'Accessories name' with the value 'Pedla' and 'price' with the value '150'. Below the inputs are 'Edit' and 'Cancel' buttons. The top right corner shows the text 'ShivDeep cycle'. At the bottom, there are copyright and power information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

# Manage Booking

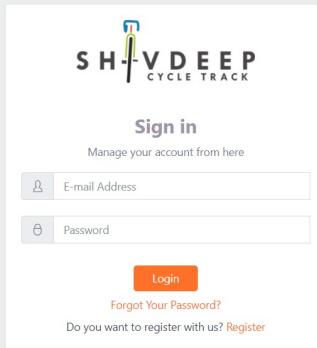

The screenshot shows the 'Manage Bookings' page of the ShivDeep Cycle administration system. The left sidebar contains a navigation menu with items like 'Manage User', 'Manage Bicycle Brands', 'Manage Service Category', 'Manage Bicycle Service', 'Manage Packages', 'Manage Bookings', 'Manage FeedBacks', and 'Manage Accessories'. The main content area has a header 'Manage Bookings'. It displays a table with one row of data: 'User Name' (Vasu pastagia), 'Total Amount' (1100), 'Package' (Silver), 'Status' (request in process), 'Created At' (2021-07-10 07:23:50), and an 'Action' column containing a 'View' button. The top right corner shows the text 'ShivDeep cycle'. At the bottom, there are copyright and power information: 'ShivDeep Cycle © 2021 MarkUs InfoTech.' and 'Powered by MarkUs InfoTech.'

# View Booking /Update Status /Delete Booking

The screenshot shows a web-based administrative interface for managing bookings. The left sidebar lists various administrative functions: Manage User, Manage Bicycle Brands, Manage Service Category, Manage Bicycle Service, Manage Packages, Manage Bookings, Manage Feedbacks, and Manage Accessories. The main content area is titled "Manage Bookings" and displays "Customer Details". It includes fields for Customer Name (Vasu Patadia), Email (vasupatadia2001@gmail.com), Contact (9986284187), Address (Khandwala Street, bhagat), State (Gujarat), and City (surat). A "Download PDF" button is located in the top right corner of this section. Below this is a "Booking Details" section containing a "Package" table with items like "Silver", "Break Adjustment", "Wheel Alignment", "Chain Repairing", and "Check the fittings of all Screws and bolts". There are also fields for "Brand" (FireFox), "Extra Bicycle Services" (safety check and report), and a dropdown menu for "Status" set to "Request in Process". An "Update" button is positioned next to the status dropdown. At the bottom of the form are "Back" and "Delete" buttons. The URL in the browser header is "Home / admin / bookings / show / 38".

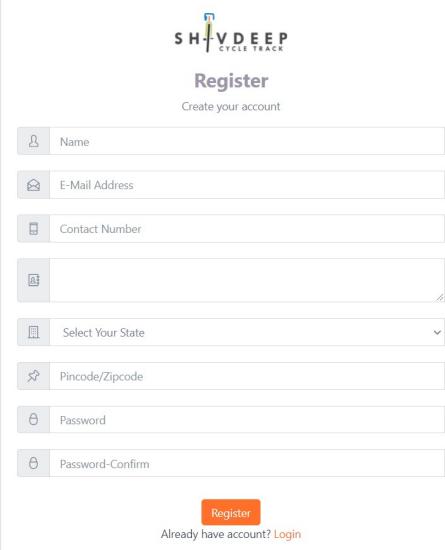

# User Interface Design

## Login

The login screen features the Shyvdeep Cycle Track logo at the top. Below it, the word "Sign in" is displayed in a bold, dark blue font. A sub-instruction "Manage your account from here" follows. There are two input fields: one for "E-mail Address" with a user icon and another for "Password" with a lock icon. A red "Login" button is centered below the fields. Below the button, links for "Forgot Your Password?" and "Do you want to register with us? Register" are provided.

## Registration

The registration screen features the Shyvdeep Cycle Track logo at the top. Below it, the word "Register" is displayed in a bold, dark blue font, followed by the sub-instruction "Create your account". The form consists of several input fields: "Name" (user icon), "E-Mail Address" (envelope icon), "Contact Number" (phone icon), "Select Your State" (dropdown menu icon), "Pincode/Zipcode" (location pin icon), "Password" (lock icon), and "Password-Confirm" (lock icon). A red "Register" button is located at the bottom. Below the button, a link for "Already have account? Login" is provided.

# Home Page

The screenshot shows a modern website for a bicycle service and repair company. At the top, there's a navigation bar with links for HOME, ABOUT, PAGES, MY PROFILE, CONTACT US, and ACTIONS. The main header features the logo "SHIVDEEP CYCLE TRACK" and contact information: EMAIL: shivdeepcycle@info.com, PHONE: 8585967785, along with social media icons for Facebook, Twitter, Google+, LinkedIn, and YouTube.

The main banner has a large orange triangle on the left and a background image of a cyclist at sunset. The text "REVOLUTION BICYCLES SERVICE & REPAIR" is prominently displayed. On the right side of the banner, a close-up photo shows a person's legs and feet pedaling a bicycle.

Below the banner, there's a section titled "ABOUT US" with a brief description of the company's history and services. It includes a "Book Your Appointment" button and a small icon of a bicycle.

The next section, "OUR ACHIEVEMENT", features a cyclist in motion against a dark background. It displays statistics: 2000+ CYCLE REPAIRS, 150+ CLIENTS, and 16 AWARD WON, each accompanied by an icon.

A "MEET OUR TEAM" section follows, showing four team members in a row, each with a small profile picture.

The bottom section contains a call-to-action: "BOOK APPOINTMENT, AND WE WILL SOLVE ALL YOUR PROBLEMS" with a "Book Now" button, set against a background image of a red bicycle wheel.

# Booking

## Step-1

The screenshot shows the ShivDeep Cycle Track website's checkout page. At the top, there is a navigation bar with links for HOME, ABOUT, PAGES, MY PROFILE, CONTACT US, and ACTIONS. The main header says "CHECKOUT". Below the header, there are three steps: STEP 1, STEP 2, and STEP 3. The first step contains two sections: "SILVER" and "GOLD", each listing several services with checkboxes. The second step, "SELECT PLAN", offers "Silver (\$800)" and "Gold (\$1200)". The third step, "SELECT ADDITIONAL SERVICES", lists various optional services with checkboxes. At the bottom of this section are dropdown menus for "Select Service Category" and "Select Bicycle Brand", a "Model name" input field, and a "Next" button.

The screenshot shows the ShivDeep Cycle Track website's footer. It features the company logo and name. Below the logo, there is a "CONTACT INFO" section with address details: FF/09-T10, Riddi Residency, LP Savani, School Rd, near SBI Bank, Adajan, Surat, Gujarat 395009. It also includes office numbers (0261-2782769, 0261-2750001), an email address (shivdeepcycletrack@gmail.com), and social media icons for Facebook, Twitter, Google+, LinkedIn, and YouTube. A "FLICKER WIDGET" section displays a grid of small images related to cycling. At the bottom, there is a copyright notice: "Copyright © 2021, Mark-Us Infotech. All Rights Reserved."

## Step 2

The screenshot shows the 'CHECKOUT' page of the Shivdeep Cycle Track website. At the top, there's a navigation bar with links for HOME, ABOUT, PAGES, MY PROFILE, CONTACT US, and ACTIONS. The main heading 'CHECKOUT' is displayed prominently. Below the heading, there are three orange arrows labeled 'STEP 1', 'STEP 2', and 'STEP 3'. The central form area is titled 'BILLING AND ADDRESS DETAILS' and contains fields for Customer Name (Vasu Pastagia), Contact (9998284188), Address (Bhagal), Pincode (395003), City (Surat), State (Gujarat), Book Appointment Date (dd-mm-yyyy), and Change Address (checkbox). Below this, there's a section for changing the address with dropdown menus for Select Your State, Address\*, and Pincode/Zipcode. A large orange 'NEXT' button is located at the bottom right of the form.

The screenshot shows the footer section of the Shivdeep Cycle Track website. It features the company logo 'SHIVDEEP CYCLE TRACK'. Below the logo, there's a 'CONTACT INFO' section with an address: FF/109-110, Riddi Residency, LP Savani, School Rd, near Sai Bank, Adajan, Surat, Gujarat 395009. It also lists office numbers (0261-2782769, 0261-2750001) and an email address (shivdeepcycletrack@gmail.com). To the right, there's a 'FLICKER WIDGET' section displaying several small images related to cycling. At the bottom, there's a copyright notice: 'Copyright © 2021, Mark-us Infotech. All Rights Reserved.'

# Step 3

The screenshot shows the third step of a three-step checkout process. At the top, there's a header with the logo "SHIVDEEP CYCLE TRACK", contact information (EMAIL: shivdeepcycle@info.com, PHONE: 8585967785), and social media links (Facebook, Twitter, Google+, LinkedIn, YouTube). Below the header, the main content area has a large orange header with the word "CHECKOUT". The background of the content area features a photograph of a cyclist in motion. A navigation bar at the bottom shows "STEP 1", "STEP 2", and "STEP 3" with arrows pointing right.

**ADDRESS DETAILS**

Test Action	Allow access or deny access
Error Message	The credentials do not match our records.

Test Case	2
Description	Add data
Pre-condition	Admin must be logged in. Fields should not be empty and must be of database datatype.
Test Action	Add data or error.
Error Message	Enter correct data.

<b>Test Case</b>	3
Description	Edit data
Pre-condition	Admin must be logged in. Fields should not be empty and must be of database datatype.
Test Action	Edit data.
Error Message	Enter correct data.

<b>Test Case</b>	4
Description	Delete data
Pre-condition	Admin must be logged in. Admin
Test Action	Deleted data.
Error Message	Data Deleted after acknowledgement.

# User Side

Test Case	1
Description	Login
Pre-condition	User should know email and password. Both field should not be empty.
Test Action	Allow or deny access.
Error Message	Invalid email and password.

Test Case	2
Description	Registration
Pre-condition	Fields should not be empty and should be of database datatype.
Test Action	Create new user.
Error Message	Enter valid data.

<b>Test Case</b>	3
Description	Forgot password
Pre-condition	User should know his email address.
Test Action	Change password.
Error Message	Enter valid email.

<b>Test Case</b>	4
Description	Change password
Pre-condition	User should know his current password.
Test Action	Update user password.
Error Message	Enter valid password.

<b>Test Case</b>	5
Description	Send query
Pre-condition	Fields should not be empty and should be of database datatype.
Test Action	Submit query.
Error Message	Enter valid data.

<b>Test Case</b>	6
Description	Book appointment
Pre-condition	User must be logged in.
Test Action	Booking
Error Message	Redirect to login.

<b>Test Case</b>	7
Description	Booking
Pre-condition	Enter all data. Fields should not be empty and should be of database datatype.
Test Action	Appointment booked. New Booking is created.
Error Message	Enter valid data.

<b>Test Case</b>	8
<b>Description</b>	feedback
<b>Pre-condition</b>	Enter email and feedback message. Fields should not be empty and should be of database datatype.
<b>Test Action</b>	Feedback is added.
<b>Error Message</b>	Enter valid data.

## **6.Limitation**

- No payment gateway available.
- Accessories purchase under development.

## **7.Future Scope**

- Payment gateway will be available soon.
- Email confirmation after booking appointment.
- Accessories purchase will be available soon.
